ASCEND

AERIAL ROBOTICS TEAM

We build competitive drones of the future.

We aim high, work hard, and create new and innovative solutions to some of the most challenging problems in cybernetics and autonomy as of today.

COMPETITIONS

Ascend is competing in Mission 9, which will hopefully be held in the summer of 2021. The narrative revolves around a dystopian future, where an AI overlord patrols the seas using autonomous Hunter-Killer vessels. The mission poses difficult challenges for all our groups.
